

Arkansas Post Water Trail

US Army Corps of Engineers
Little Rock District

Water Trail Length
5 miles

Float Time Expect to travel 1-2 mph. Vegetation may slow or block travel during summer; adjust the route to suit conditions.

Warning Do not enter the Arkansas River channel at the south end of Arkansas Post National Memorial. Boat traffic and strong currents can be dangerous.

Water Conditions At safe water levels, the bayous of Arkansas Post are flat-water paddles; a shuttle vehicle is not needed. Wind and waves can create dangerous conditions on the open water of Post Bayou and Post Lake. Moore Bayou provides more shelter.

OUR PARTNERS

The Army Corps of Engineers, the National Park Service, the Arkansas Canoe Club and the Arkansas Game and Fish Commission are partners in this water trail.
